Qwik EID Slaughter Tags

The Qwik EID is a one piece EID loop tag, available in strips of 10. It is used solely as a direct to slaughter tag. The tag is applied in the right ear using the red Qwik EID tagger.

Button EID Slaughter Tags

This is a two piece tag comprising a mini sheep male and EID button female tag. The tag is applied in the right ear using an Allflex tagger. It is used as a direct to slaughter tag and is available in strips of 8.

Electronic Tag Set

Visual Tag (Left Ear)

Electronic Tag (Right Ear)

(Note; The blank tag can be used for management purposes.)

This tag set can be used on all sheep moving to mart or moving from farm to farm and on all sheep retained for breeding. It comprises an EID tag for the right ear and a visual tag for the left ear and both tags are applied using an Allflex tagger.

Upgrade Electronic Tag Set (One Ear)

Electronic Tag (Right Ear)

This electronic tag set to be applied in the right ear of all sheep over 1 year of age. The tag numbers can be ordered using the relevant section of the order form where each individual number required must be listed.

Electronic Tag Reader

RS420 Series Stick Reader

Stores up to 100,000 ID numbers. Overall Length 68cm. Bluetooth as standard.

Reader prices available on request.

Electronic Bolus Set

Visual Tag (Left Ear)

(Note; Blank tag can be used for management purposes.)

Tag, Bolus & Applicator

The electronic bolus set can be supplied as an alternative to the electronic tag set and must be accompanied by a blue visual tag in the left ear of the animal.

Note; Details on ID Bolus & Applicator available on request.
